

LUCKY MARANGE

Junior Software Developer & IT Scholar

📍 Winterveldt, Pretoria, South Africa | 📞 +27 79 668 8144

✉ marangelucky@gmail.com | 🌐 GitHub: github.com/luckymarange | 💼 LinkedIn: linkedin.com/in/luckymarange

PROFESSIONAL SUMMARY

An analytical and detail-oriented **IT Student at North-West University (NWU)** transitioning a proven 15-year career in **Mathematics and Physical Sciences education** into **Software Development, Database Engineering, and IT Infrastructure**. Combines high-level problem-solving logic and structured technical communication with practical expertise in **Java, C#, JavaScript/Node.js, SQL, and MongoDB**. Proven track record of consistently achieving 100% success rates through discipline, rapid adaptability, and continuous learning.

CORE TECHNICAL COMPETENCIES

- **Programming & Backend:** Java, C#, JavaScript (Node.js/Express), Python
- **Databases:** MySQL, Oracle SQL, MongoDB / MongoDB Atlas
- **Web & Frontend:** HTML5, CSS3, Tailwind CSS
- **Computer Systems & Architecture:** Data Structures & Algorithms, Problem-Solving Agents, Search Algorithms, OSI Model & Computer Networks, Linux Terminal & Administration
- **Soft Skills:** Logical Reasoning, Technical Mentorship, Complex Problem-Solving, Team Collaboration

EDUCATION

Bachelor of Science / Diploma in Information Technology

North-West University (NWU) | *In Progress*

- **Key Focus Areas:** Artificial Intelligence & Search Algorithms, Database Management Systems, Network Architecture, Advanced Object-Oriented Programming (Java & C#).

KEY IT & SOFTWARE PROJECTS

Java Swing Scientific Calculator Application

- Engineered an expansive desktop scientific calculator in **Java** utilizing **Swing** UI components.
- Designed complex mathematical processing pipelines handling logarithmic, exponential, and algebraic functions with precise arithmetic logic.

Full-Stack Notes Web Application

- Built a modular backend REST API using **Node.js**, **Express**, and **Mongoose** schema validation connected to **MongoDB Atlas**.
- Implemented CRUD database operations and environment configs for seamless local and cloud deployment.

WORK & TEACHING EXPERIENCE

Senior Educator – Mathematics & Physical Sciences

Pretoria, South Africa | *15+ Years Experience*

- Delivered high-impact instruction resulting in consistent **100% pass rates** in matriculation-level Mathematics and Physics.
- Utilized structured analytical logic to decompose complex formulas and scientific concepts for over 1,000+ students.
- Developed structured curricula, mentored junior educators, and managed academic performance reporting.

CAREER HIGHLIGHTS & IT FIT

- **Mathematical Foundation:** Over 15 years applying advanced mathematical models translates directly into efficient algorithmic thinking and data structure design.
- **Proven Success:** Maintained a 100% pass rate through systematic planning, execution, and continuous feedback loops.
- **Effective Communicator:** Exceptional capability to articulate complex technical and logical architecture to both technical teams and stakeholders.
